DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-14, drawn to a shared memory and method for utilizing shared memory by a plurality of processors, classified in class 711, subclass 147.
 - II. Claims 15-22, drawn to a method for maintaining translation lookaside buffer consistency, including the specifics of invalidating a copy of a page table entry, broadcasting a TLB invalidated entry instruction, determining whether to invalidate entries in local TLBs and issuing a synchronization instruction to the plurality of processing units classified in class 711, subclass 207.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as use without the specifics of invalidating a copy of a page table entry, broadcasting a TLB invalidated entry instruction, determining whether to invalidate entries in local TLBs and issuing a synchronization instruction to the plurality of processing units. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and because the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
